CAREER OBJECTIVE

To obtain a challenging position as a Java and Frontend Developer where I can apply my knowledge of Java, web technologies, and basic SAP concepts to build efficient applications while continuously learning and improving my technical skills.

TECHNICAL SKILLS

ProgrammingLanguages: Java, Python
DataBase: My SQL
Web Technologies: HTML
Soft Skills: Problem-solving, team Collaboration, Good Communication , Team Work and Time Management.

PROJECTS

Heart Disease Prediction Using Machine Learning Algorithm

- We collected patient health details (like age, blood pressure, cholesterol, heart rate, etc.) and used Machine Learning algorithms (Logistic Regression, Decision Trees, Random Forest, etc.) to train a model that can identify patterns linked to heart disease.
- The trained model predicts whether a person is at risk of heart disease based on their health details. We tested the model for accuracy and made it easy to use in an application where users or doctors can enter details and get instant predictions.

Fingerprint-Based Blood Group Prediction Using Deep Neural Network

- Developed a deep learning model to predict human blood groups from fingerprint images by extracting unique ridge pattern features using a Deep Neural Network (DNN).
- Performed image preprocessing, model training, and performance evaluation to improve prediction accuracy, demonstrating the application of AI in biometric-based healthcare solutions**.**

EDUCATION

Bachelor of Technology - AIDS 2022-2026
Dhanalakshmi Srinivasan University, Samayapuram.
CGPA: 7/10

Intermediate - MPC 2020-2022
Sri SaiRam Junior College, Ongole.
CGPA: 8.8/10

Secondary School Certificate - SSC 2019-2020
ZP High School, Patchava. CGPA: 9.8/10

CERTIFICATIONS

- Virtual internship in Data Science from MTTF.
- Virtual internship in Python from Code Tech IT Solutions.
- "Java Programming" Certificate in Code Tech IT Solutions
- Java Fullstack Development with Grade A+ powered by SAP Labs India.

ACHIEVEMENTS

- Attended workshop on Python Organized by Math Tech Thinking Foundation.
- Data Analysis using Python from IBM.

DECLARATION

I solemnly declare that all the information furnished above is true to the best of my knowledge and belief.

Aparna Mullamuri.
